Subject: RE: Scheduling RI Meeting - Section 5 proposed revisions

Jen – I'd like to review the information sent earlier today by Gene before meeting to discuss; especially to limit the amount of discussion. I won't have time to get through this by Tuesday. I'd like to propose next Friday. I'm going to grant and extension of time to resolve these issues for two more weeks, until August 8, 2014. Hopefully, we can resolve earlier, but this will also allow the LWG adequate time to review Sections 5 and 10 together.

Subject: RE: Scheduling RI Meeting - Section 5 proposed revisions

Kristine,

I would like to schedule a meeting to discuss the proposed revisions to the RI Section 5.

The meeting can be held in Olympia, Seattle or Portland. Please let me know what is convenient for you.

Dates that work for Jim and Gene are:

Monday, July 21 open

Tuesday, July 22 after 10:00 a.m.

We would like to schedule a three or four hour meeting, if possible.

Thank you,
Jen Woronets ☺

Subject: Section 5 proposed revisions

Hi Kristine –

We have generated proposed revisions to EPA's RI Section 5 text for subsections 5.0, 5.1 (including Table 5.1-2), 5.2, 5.3, and 5.5. We will provide proposed revisions to the remaining Sections 5.4 (Surface Water) and 5.6 (Biota) later this week. These files are provided for discussion purposes and to facilitate resolution of Section 5 revisions per the agreed upon informal dispute RI revision process. We have tried to make specific revisions that reflect the issues/concerns we discussed in our meetings on July 3rd and 8th. In general, our proposed changes focus on issues related to technical accuracy and checking that the narrative matches the data products. We have also edited language globally regarding source statements and data quality/adequacy. We do plan to include all of the nature discussions and data products in a new subsection of Appendix D. That content is not yet repackaged.

Regarding the file format, we first accepted all of EPA's RL/SO for each Section 5 subsection provided on 6-11-14, and then provided our RL/SO edits to that text so our proposed changes should be obvious. The only file structure change we made was to separated Section 5.0 and 5.1 from Section 5.2, so Section 5.2 (Bedded Sediments) is now its own word file.

We can meet at your convenience to discuss these proposed edits once you have had a chance to review them. We suggest an in-person meeting early next if that works for you. I am also available by phone or email any time this week if you have questions or need clarification on any of our edits.

Finally, regarding Section 5.4 (Surface water) and Section 5.6 (Biota), we are having difficulty replicating EPA's sample counts and cited values in those sections. Can you provide information on any database extracts/queries that EPA may have generated to support revising those Sections?

Thanks and we look forward to resolving Section 5 revisions.

Gene
